

YOUR WEDDING FILM

WHAT'S INCLUDED

“YOUR OWN LOVE STORY CAPTURED AND PRESENTED IN A CINEMATIC KEEPSAKE FOREVER.”

A PHOTO CAPTURES THE MOMENT BUT A FILM EXPRESSES
THAT MOMENT FOR US ALL TO SEE AND FEEL, THE EMOTION,
THE FUN, THE FEELING AND THE STORY.

Nothing captures the emotion and tells the story of your big day quite like a Wedding film.
Shot in a cinematic style so you can star in your own love story!

A wedding story told beautifully through cinematic wedding film is not just about the wedding day itself, it's the story within the story. The bride & groom, the family and friends, those special connections.

We're here to capture the love, the joy, the happy tears and the antics. Once in a lifetime moments for you to watch, listen and share forever.

This package is based on the most popular option as it covers the whole day and gives a great cinematic film capturing all those special moments that are more than often missed by the couple due to how hectic the day can be for them.

We capture our footage very unobtrusively and are happy working alongside photographers on the day. There might be a couple of shots we would like to achieve that mean the couple or family being available at a certain time but this is optional and done to make sure it does not interrupt anything else on the day.

As there are two of us present all day it means we can be in more places at once, seeing what others might not to make sure we don't miss a moment.
